

Contractor compliance software for facilities teams

Know who is approved to work on each site right now.

Replace spreadsheets with live Approved-to-Work status by site. Requirements, document reviews, and expiry dates feed a deterministic engine — so the answer is always current, always auditable, and never manually overridden.

How WorksiteHQ works

- 1 Set requirements by site**
Define what each contractor needs for each site — insurances, licences, inductions.
- 2 Request missing items**
WorksiteHQ identifies gaps and sends requests to contractors automatically.
- 3 Contractors upload via portal**
Contractors receive a secure link to upload documents directly.
- 4 Your team reviews documents**
Uploaded documents land in a review queue. Your team accepts or rejects each one.
- 5 Expiry state tracked automatically**
Every document with an expiry date is monitored. Alerts fire before lapse.
- 6 ATW status computed**
The engine computes Approved-to-Work status per site from requirements, reviews, and expiry.

Why teams switch from spreadsheets

	SPREADSHEETS	WORKSITEHQ
Approved-to-Work status	✗ Manual, per-person check	✓ Live, computed by site
Expiry tracking	✗ Calendar reminders or none	✓ Automated alerts and dashboard
Audit trail	✗ Version history, maybe	✓ Immutable, timestamped log
Document collection	✗ Email back-and-forth	✓ Secure contractor portal
Setup time	✗ Weeks of formatting	✓ 24 business hours

Built for auditable contractor compliance

- Deterministic approval logic**
Approval status is computed, never manually toggled. Rules are explicit and repeatable.
- Role-based access control**
Admin, Manager, and Viewer roles enforce who can see and do what.
- Organisation isolation**
Every tenant's data is isolated. No cross-organisation data leakage.
- Immutable audit trail**
Every action is logged with a timestamp, actor, and detail. Nothing is deleted.

Pricing by active contractors

<p>Core</p> <p>A\$249</p> <p>/mo</p> <p>A\$2,490/yr</p> <p>Up to 50 active contractors</p>	<p>RECOMMENDED</p> <p>Growth</p> <p>A\$449</p> <p>/mo</p> <p>A\$4,490/yr</p> <p>Up to 150 active contractors</p>	<p>Scale</p> <p>A\$799</p> <p>/mo</p> <p>A\$7,990/yr</p> <p>Up to 300 active contractors</p>	<p>Enterprise</p> <p>Custom</p> <p>/mo</p> <p>Custom</p> <p>301+ active contractors</p>
